Bausch + Lomb Launches -2.75D Cylinder Power for Bausch + Lomb ULTRA® for Astigmatism Contact Lenses, The Fastest Growing Family of Monthly Planned Replacement Lenses

Also in June, the company announced the availability of Bausch + Lomb ULTRA® for Astigmatism contact lenses in cylinder power of -2.75D, which is available across all power ranges in the portfolio, from +6.00D to -9.00D, making it the only monthly planned replacement lens with this cylinder power available in the fit set. The fastest-growing family of monthly planned replacement lenses, Bausch + Lomb ULTRA for Astigmatism lenses combine MoistureSeal® technology, which helps to maintain 95 percent of lens moisture for a full 16 hours, and OpticAlign™ design, engineered for stability to promote a successful first fit. This latest expansion will allow eye care professionals to fit more of their astigmatic patients with these lenses to provide all-day comfort, stability, and consistently clear vision.
