Now available from Alcon are Dailies Total1 Multifocal contact lenses, which are daily disposable lenses designed for people with presbyopia. The advanced features of Dailies Total1 Multifocal aim to address the specific vision needs of presbyopes, including end-of-day dryness. The optical design of the lenses is Alcon's multifocal Precision Profile technology, which is designed to offer a smooth progression of power for seamless transitions between distant, intermediate and near vision.

Alcon has also launched a rebate program to help eyecare professionals provide more of their patients with access to daily disposable contact lenses.
