

In support of its latest advances in vision diagnostics, Marco has expanded its management team to include:

- David Marco: CEO
- David Gurvis: President
- Jeff Perrye: Chief Operating Officer
- Robert Kalapp: Vice President/Corporate Accounts
- Jocelyn Schepsis: Vice President of Sales
- Irwin Kronenberg: Director of Institutional Sales and Professional Services
- Dr. G. Timothy Petito: Manager of Professional Relations.

Also: Marco has coined the term XFRACTION (optical path diagnostix & wavefront optimized refraxon) to represent the process of using the OPD Scan III in combination with the TRS-5100 to achieve a superior understanding of the patient's entire optical system, allowing for quicker, more accurate, more confident refractions.
